Whumpfs and Shooting Cracks on Woody Ridge

Woody Ridge
Cooke City
2/22/2022
Code
Latitude
44.97390
Longitude
-109.92400
Notes

I had two whumps and shooting cracks of small wind slabs (10cm thick) near the top of Woody Ridge on a W aspect. The top of Woody usually has a weak and thin snowpack and gets scoured or loaded, so I wasn't surprised.

No other signs of instability observed.
