

Natural in Republic Creek

Republic Creek

Cooke City

12/14/2019

Code

SS-N-R2-D2.5-O

Elevation

9800

Aspect

NE

Latitude

44.98550

Longitude

-109.94100

Notes

From e-mail: "... This picture is from what I call the Sirens. Looks pretty recent. Steep terrain and repeat offender every season. We got some isolated collapses while skinning today. West face [snowpit](#) at 9600' revealed no issues with Thanksgiving later, but did get it to go 90cm deep on a Ect31, big wallop on basal facets."
