

From an observation: "We were up on the ridge off Palace Butte and saw this recent natural released slide. Crown was big in spots. Must have happened sometime over night or in the morning (1/29 or 1/30) perhaps from the recent wind loading. East, southeast facing, on the peak north of MT Bole." Photo: A. Schrier

Advisory Region
Northern Gallatin
Longitude
-110.96W

Latitude

45.45N
