Collapsing on Barronette

Barronette Peak Cooke City 12/22/2023 Code Latitude 44.97520 Longitude -110.08700 Notes

From YouTube comment 12/22/23: "I am an alpine climber - descended from Barronnette today, went south all the way down the ridgeline and descended the gully above the start of the XC trail. Heard 10+ instances of whomping and slope collapsing under my feet on both avalanche and non-avalanche slopes on N & E aspects."
