

Cracking and Collapsing in Jones Creek

Date

Fri, 01/19/2024 - 16:45

Activity

Skiing

From text: "I'm back poking around on the ridge between Truman Gulch and Jones Creek today. The wind has moved enough snow to create some pockets of denser snow that will crack and whumph in places. It definitely feels a little upside down in places."

Region

Bridger Range

Location (from list)

BRIDGER RANGE

Observer Name

Pat Hinz
