

Mellow, sunny day tour @ Targhee pass

Date

Sun, 03/03/2024 - 11:30

Activity

Skiing

Snowboarding

Mellow ski/split tour up to ridge from the pass day after the storm. Fresh snow in trees was 4-6", in meadows fresh snow had moved around & was trace to a foot. Tops of trees had snow blown off, ridge itself was windswept & trees were coated in rime/hoar.

We stuck to terrain <30 degree slope and observed no avvy sign. Fun ski down, especially upper glades, & we were there only tracks out there once we got out of the lower meadows.

Region

Lionhead Range

Location (from list)

Targhee Pass Meadows
