Dry Loose on Ross Pk.

Ross Peak Bridger Range 4/18/2024 Code L-AS Latitude 45.85700 Longitude -110.95100

From obs: "Skied the Banana Coulior off Ross today (04/18). 6-8" of fresh, dry snow has fallen and lies above a bomber crust that was observed on all aspects we traveled on. The <u>weak interface</u> between new, dry snow and the pervasive crust allowed for a large sluff, or dry-loose <u>slide</u>, that began near the top of the Banana Coulior and ran for ~ 500 "

Number of slides

1
