Very large deep wet slab in Republic Creek

Republic Creek Cooke City 6/10/2024 Code WS-N-R5-D4-O Elevation 10200 Aspect N Latitude 44.96820 Longitude -109.96400 Notes Photos taken 6/10/24 around 1pm. Wet slab in Republic Creek south of Cooke. I estimate 10-20' deep and 1000'+ wide. The past 5-6 days have been warm, and previous night there was steady rain all night into the mid morning, so not out of the question that it happened within 24 hrs, likely within the last 1-3 days.
